The History Of Technology High School

In our exploration into the history of Technology High School, we discovered that the construction of the school, built on the former site of the Kearny Homestead, began in December 1911. This school opened September 16, 1913. This school, then known as Newark Normal School, cost \$275,000.

The school has undergone many name changes. First, Newark Normal School, and then NJ State Normal School in Newark, and finally, by 1937, called the NJ Teachers College at Newark. In 1972, the building was renamed to Center For Occupational Education Experimentation and Development (COED).

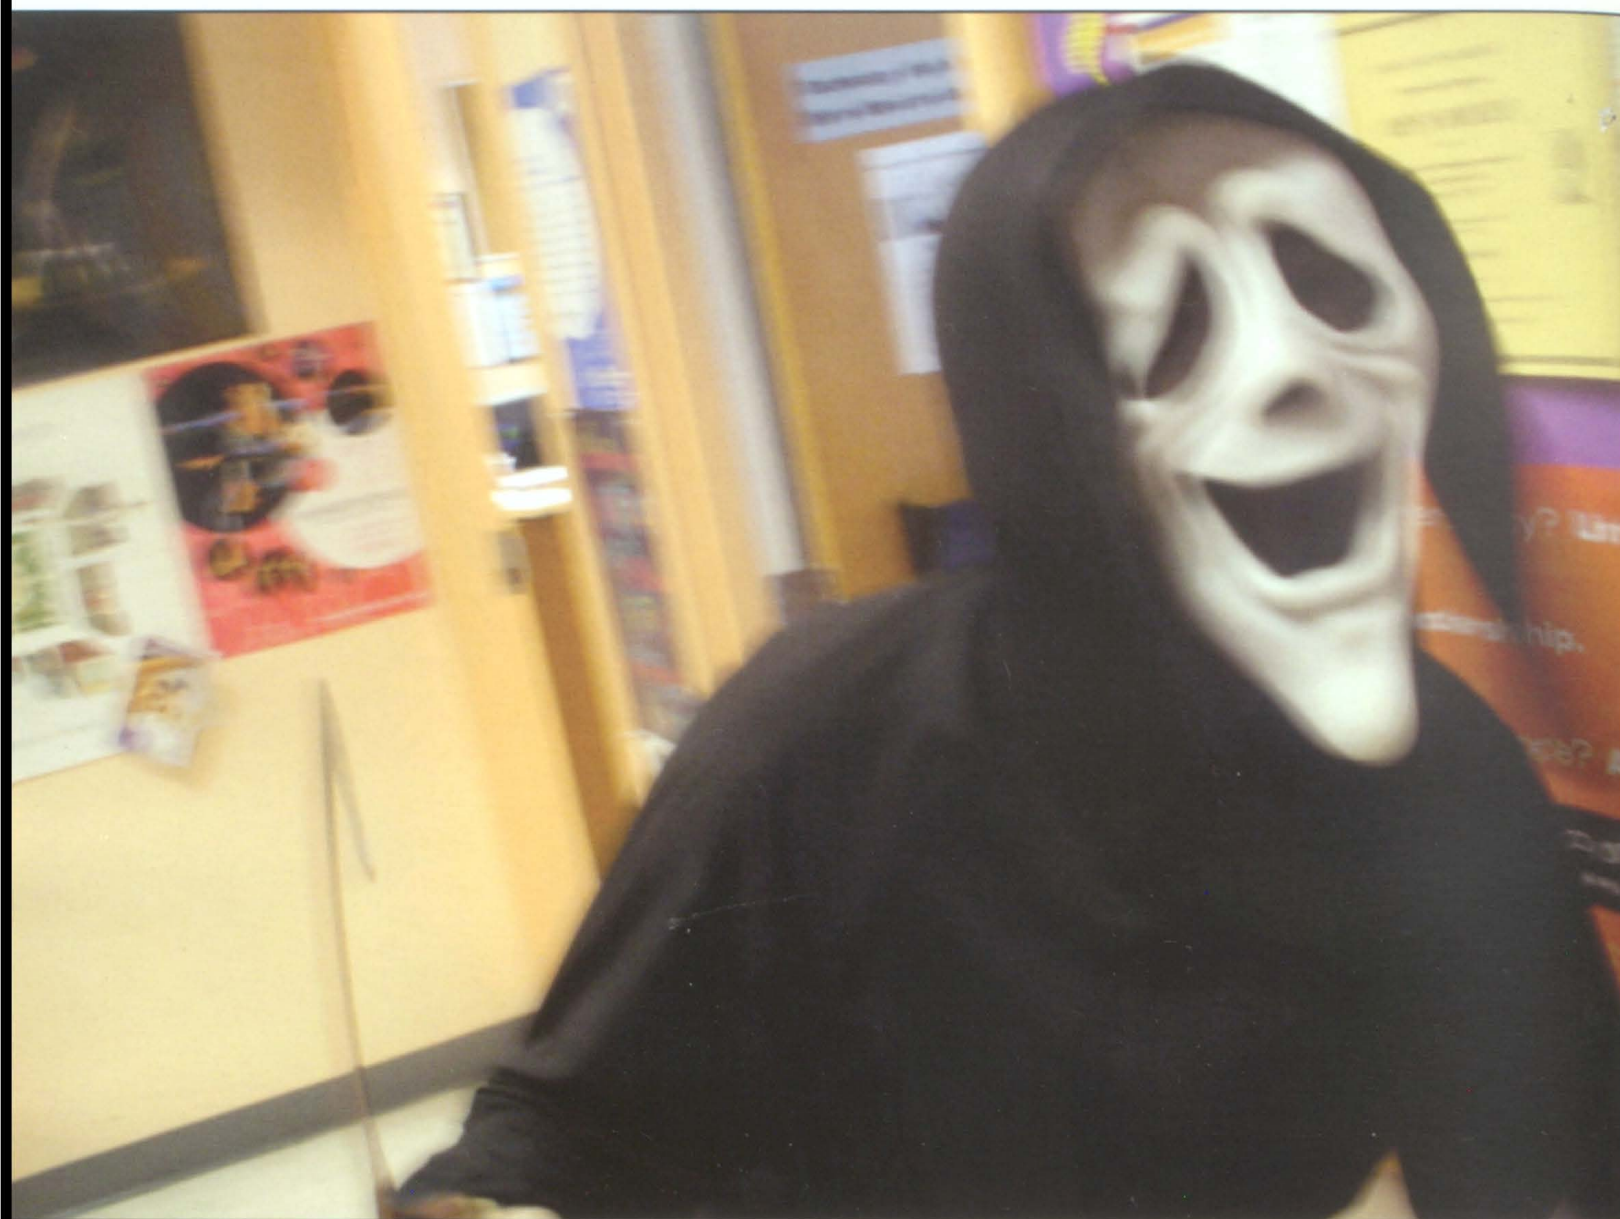

The academic side of the building was also home to Arts High School during its rebuilding phase. In September of 1996, Technology High School opened its doors.

At Technology High School, we place emphasis on excellence in the areas of academic and technological training.

Mission Statement

Technology High School is committed to a three-fold mission of providing a college preparatory program for students who desire to further their formal education, work-place readiness experience for students interested in pursuing careers in technology, and a school-to-career program for students who will further their formal education and career concurrently.

The theme - Mardi Gras. The location - Seabra's Rodizio.
The occasion - The THS 2005 Junior Prom, and it was a huge success.

Students came out for a great time filled with music, good food, and great company. Masks and beads were abundant on every table as the then Juniors danced the night away.

Early in the evening, guests were treated to a "duct tape" fashion show, as Brunilda, Ariel, and Jasmine competed for scholarships by coming dressed in outfits made completely made of duct tape.

The evening was capped off with the crowning of the Prom King and Queen - Jonathan Crespo and Brunilda Tejada.

Girls Tennis

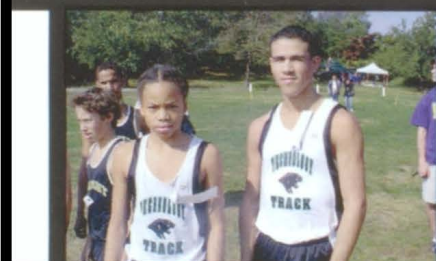

So what exactly is the sport of tennis all about? Just like any other sport, it requires a great amount of stamina, concentration and hand-eye coordination. It is by no means a game that should be underestimated or overlooked - for it can sometimes be twice as exciting as the games shown on Monday Night Football, especially if one is watching the Technology High Schools Girl's Tennis team play. These young ladies have mastered the game of tennis through their hardcore practices and team commitment. The members of the Girl's Tennis team are a group of extremely devoted tennis-loving students who breathe, eat and sleep tennis all throughout the year. The team, whose captain is junior Katherine Arauz and coached by Wilson Texeira, has had nothing but success, leaving a clear path of excellence to be followed by the students who follow in their footsteps next year.

Love, Mommy

To my dear daughter Stephanie,

Here you are ~ reaching another milestone in life. More to go, sweetheart, but you're doing just fine!

I can't believe how quickly you've grown. I still remember your first day of kindergarten. How you bravely let go of my hand and walked in with the other small children. I cried as I watched my little girl walk into a new world with such courage and determination. My heart filled with pride and joy!

I thank God for blessing me with a precious baby girl. You continue to fill my life with pride and joy.

Again and again, I will have to let go of your hand. But I am confident that your courage and determination will see you through and you will achieve your goals and success will be yours!

But know that all you have to do is look back and find me watching after you ~ all the way!

I love you princess.

Congratulations on your Graduation!!

Love,
Mom

*To my Beautiful Daughter
Brynisha!*

*Congratulations for this day - working
so hard from grammar school to high
school. I am so proud of how you represent
yourself from a child to a young woman.
I love you so very much!*

*Sincerely, your father,
Dino Boyd*

TO MY GODDAUGHTER, STEPHANIE

As I reflect on the past seventeen years, it amazes me how times have changed, but I must say there is something that has not, and that is how special you are to me and how much I Love You. We are faced with challenges in our lives, some of them more difficult than others, but with the strong family foundation you are so fortunate to have, I am sure you will overcome them all. I ask God to allow me to be with you in times of need, to help you each day, to keep you safe and guide you on the adventures that begin upon graduation. May you reach all of your goals.....

LOVE ALWAYS,
MADRINA

Caprese,
a successful young lady who
can achieve anything in life.
Keep your head high, nev-

Our sincere thanks to

Ms. Dana for your understanding and caring throughout this process, and your support of our fundraisers.

Mr. DeBlasio for your master proofing skills and the ink (where would we be without the ink?)!

Mr. Creamer for those days when we couldn't figure out how to use the programs, the computer malfunction, your scanner, and cutting paper. Greatly appreciated!

Ms. Markatos for the disks used in our cameras. Thanks for keeping our activity in mind.

Ms. Jeri for countless fundraising and activities forms. Thanks for all of your help!

Britney, our yearbook company representative. Thanks for the hours of going over the pages!

*P*riceless
